

Callum

Work experience- Petty Pool

Callum would like to live independently and has been developing his independence skills learning about positive relationships, travel training, cooking on a budget and living a healthy lifestyle.

Callum told us:

I would like to get a paid job like a sports shop such as JD Sports and also to become a DJ. I love music and performing and would love to do this as my job and get paid for it.

Callum regularly DJ's at college raising money for local charities. He performs for other colleges and performed in Manchester for an end of year ball. Callum opened for the national NATSPEC conference.

Callum attended High School and wanted to come to Petty Pool to do Business. In the first year Callum explored his options developing his skills looking at personal progression and working in a team. Over these two years Callum has been working towards his BTEC introductory Diploma in Business.

Callum has worked on two internal work experience placements and has developed many skills such as office and administration, customer service and stocktaking. Callum is currently looking at how to start a business and create a brand to help sell products and create a market for a business.

Tutor:

Callum is very talented and has shown he has the skills to make it as a DJ. His high aspirations will help him to succeed and continue to develop his skills to create new opportunities for him and his future.
