

Sam

**Work experience-
Local charity shop**

Sam has been developing his independence skills learning about living independently, positive relationships, travel training, cooking on a budget and living a healthy lifestyle.

Sam told us:

“ I am looking forward to starting my Supported Internship, working in a shop and getting a paid job in the future. ”

Sam's aspirations are to get a place on the supported internship, which he has just been accepted on and to get a paid job working in retail.

Sam first attended high School and wanted to come to Petty Pool study Business. In the first year Sam explored his options developing his skills looking at personal progression and working in a team. Over these two years Sam has been working towards his BTEC introductory Diploma in Business.

Sam has worked on two internal work experience placements at Petty Pool and has developed many skills such as customer service, communication and IT skills working in these areas.

Tutor:

“ Sam has excelled in his class and enjoys the practical world of work. He is polite, motivated and enjoys a joke or two with his friends. Sam strives for his best in everything he does, and an employer would be lucky to have him. ”
